Flowless

Profile

Profile

Profile is the best-looking line of speakers we've ever created. Really, Profile is the best-looking line of speakers we've ever created. They barely even look like speakers. They look more like shadows—and that's if you notice them at all, which no one probably will unless they're just inquisitely curious about where all that great sound is coming from.

There's no base and no visible mounting flange. All you see is a grille, which can be painted to match the wall or ceiling. It's the cleanest speaker installation you ever saw—or didn't see.

The Profile concept is available in numerous SpeakerCraft products. It's perfect for any place you want great sound but don't want visible speakers—in other words, for any room of any house in the world.

Spectacular

sound is what our customers have come to expect from SpeakerCraft, and it's what they'll get when they choose the Profile line. It should come as no surprise that Profile speakers sound every bit as good as SpeakerCraft's other speakers, because they are SpeakerCraft's other speakers. The sleek Profile magnetic grille is now an option on many of our in-ceiling and in-wall models, including such award-winning designs as the AM8 in-ceiling and the AM LCR in-wall. Nothing changes but the grille. The sound is exactly the same.

AIM Series in-ceiling speakers were the first to feature an amicable woofer/woofer module that aims the sound in any direction you choose. No longer are you bound by the design of your room. Just mount the speakers wherever it's convenient and point them wherever you want sound. Profile grilles are available in AM6, AM7 and AM8 models.

CBS Satelites speakers deliver spectacular SpeakerCraft sound using the best-quality path, the most meticulous engineering and proprietary technologies such as our Waveform Tweeter Baffle for a broader, bigger sound. Profile grilles are an option on the C38 and C38 models—and even on the C33, our first and most distinct in-ceiling speaker.

AM LCR speakers deliver powerful, compelling home theater sound in a fun, easy-to-mount in-wall model. The best-looking fit so you can claim the sound exactly where you want it. AM LCR and AM LCR models are available with Profile grilles as an option.

Profile

Model	Woofer(s)	Tweeter(s)	EQ Switches	Efficiency	Frequency Response
Profile AIM8 One	8" Poly.	1" Silk	N/A	88dB 1W/1m	40Hz-20kHz
Profile AIM7 Two	7" Fiberglass	1" Silk	Front Mounted	90dB 1W/1m	40Hz-20kHz
Profile AIM5 One	5.25" Poly.	.75" Silk	N/A	88dB 1W/1m	55Hz-20kHz
Profile CRS8 One	8" Poly.	1" Silk	N/A	89dB 1W/1m	40Hz-20kHz
Profile CRS6 One	6.5" Poly.	1" Silk	N/A	92dB 1W/1m	40Hz-20kHz
Profile CRS3	3" Alum. Full Range	N/A	N/A	86dB 1W/1m	80Hz-16kHz
Profile AIM LCR One	2 - 5.25" IMG	1" Silk	N/A	89dB 1W/1m	55Hz-20kHz
Profile AIM LCR3 Three	2 - 3" Alum.	.75" Alum.	Front Mounted	86dB 1W/1m	78Hz-20kHz
