Installed In-Ceiling

## Extraordinary High-Performance Speakers that Virtually Disappear in Your Room

Introducing an entirely new line of flush-mount in-ceiling/in-wall loudspeakers — Definitive's *Disappearing™ In-Wall* series. All models feature near-invisibility thanks to their small diameters, hidden flange design, and low profile micro-perf grilles. They are as easy to install as traditional flanged flush-mount speakers, and don't require custom sheetrock/spackle skills to install and look practically invisible.

- Simple conventional installation — no spackle work required
- Latest generation BDSS drivers
- Pivoting Pure Aluminum dome tweeters
- Axially Aligned design ensures broad, balanced coverage area
- Sure-grip magnetic grille fasteners
- Adjustable high-definition crossover
- Optional fire-rated enclosures
- Cast PolyStone baskets for rigidity without "ringing"
- Nine models for every installation need

Model	Driver Complement	Application
<b>Di 3.5R</b>	3 1/2" BDSS, 1" pivoting tweeter	Round, ceiling
<b>Di 4.5R</b>	4 1/2" BDSS, 1" pivoting tweeter	Round, ceiling
<b>Di 5.5R</b>	5 1/4" BDSS, 1" pivoting tweeter	Round, ceiling
<b>Di 6.5R</b>	6 1/2" BDSS, 1" pivoting tweeter	Round, ceiling
<b>Di 6.5STR</b>	6 1/2" dual voice coil BDSS, Two 1" pivoting tweeters	Round stereo speaker, ceiling
<b>Di 8.0R</b>	8" BDSS, 1" pivoting tweeter	Round, ceiling
<b>Di 5.5S</b>	5 1/4" BDSS, 1" pivoting tweeter	Square, wall or ceiling
<b>Di 6.5S</b>	6 1/2" BDSS, 1" pivoting tweeter	Square, wall or ceiling
<b>Di 5.5BPS</b>	Two 5 1/4" BDSS, two 1" tweeters	Rectangular Bipolar surround, wall or ceiling

Information is preliminary and subject to change.

# DISAPPEARING™ IN-WALLS

High precision, tight tolerance audiophile-grade crossover components

Cast PolyStone basket

New and improved rotating clamp installation system

Energy-absorbing baffle material reduces diffraction for superior sound quality

Axially Aligned pivoting tweeter and BDSS driver for the broadest dispersion and best off-axis response

## Disappearing In-Walls Advanced Technology

The Disappearing In-Wall models feature Definitive's most advanced technologies such as BDSS drivers and pivoting Pure Aluminum dome tweeters for spectacular audio performance far beyond traditional flush-mount speakers.

Definitive's exclusive Balanced Dual Surround System (BDSS) driver technology permits these new flush mounts to deliver more bass output and dynamic range than larger drivers. For example, the 4<sup>1</sup>/<sub>2</sub>" driver-based model has the bass and dynamics of a 5<sup>1</sup>/<sub>4</sub>" traditional speaker, while the 5<sup>1</sup>/<sub>4</sub>" performs like a traditional 6<sup>1</sup>/<sub>2</sub>", and so on.

With a pivoting 1" Pure Aluminum dome tweeter featuring a specially shaped housing that avoids the diffraction distortions of traditional post-mounted tweeters, and a sophisticated adjustable crossover network, the Disappearing In-Wall models deliver the kind of lifelike sonic performance and broad even dispersion that have made Definitive Technology the most highly reviewed speaker brand in the USA.

Fire-rated pre-construction enclosures will be available as options, allowing integrators, architects and designers to specify Disappearing In-Wall Speakers in multi-family and commercial applications.
